

Noise Report from 05 November'18 to 24 November'18 (ie 3 weeks)

Readings from 05-11-2018 15:19 for 3 weeks

6,470 readings
(Showing 1/10)

High reading explanations :

1. The above reflects a number of technical malfunctions experienced due to power outage and defective parts.
2. Due to a software issue, on this occasion the data is based on a 15 min average which heightens the readings from previous reports.
